

IN'FLECTOR®
Insulating Panels
The All Season Solar Controller

January 2006

I just wanted to thank the people at IN'FLECTOR for solving my heat gain issue at the cottage. My cottage windows allow me a beautiful view of the outside surroundings, but were often covered up with curtains to block the heat. The IN'FLECTOR product eliminates this issue. I can now see clearly and comfortably out the front windows. We also enjoy the privacy that the IN'FLECTOR product provides.

I also received an added benefit when I reversed the product in the winter and the room began to heat up by itself, whether I was there or not. What a difference to arrive at the cottage in the winter and the place is not as cold any more.

Thanks again;

Joe Buchinger
Ontario, Canada

IN'FLECTOR Products are a great investment.
